WORK EXPERIENCE

Front-End Developer Amdocs

08/2019 - Present

Pune, India

Achievements/Tasks

- Created independent widgets using React, so that they are generic and can be used across the application
- Wrote complex logic to inherit and extend Core base behavior so as to avoid rewriting code
- Provided and overlooked technical training's for new joiners
- Adapted quickly to the Telecom domain to understand the depths, the ins and outs of the business (Vodafone Italy)
- Implemented storybook components and drove migration of API sdk to Typescript

UI Developer Hashmap Inc.

08/2018 - 08/2019

Pune, India

Achievements/Tasks

- Single-handedly designed fluidic and responsive web pages to characterise and render data in tabular formats using Angular and Bootstrap
- Developed and published an NPM module to render excel sheets onto web pages (react-excel-renderer) [🔗](#)
- Implemented Web-HDFS API to develop an application to upload any file onto HDFS using React as the UI library

Software Engineer Xoriant Corporation

08/2016 - 08/2018

Pune, India

Achievements/Tasks

- Constructed complex yet independent and loosely coupled modules that contained logic to accommodate requirements
- Implemented a generic-ajax module that is used across the entire application to establish ajax calls
- Improved overall performance of application through code splitting, chunking and tree shaking using Webpack in application
- Drove migration of Webpack from 1 to 3

EDUCATION

Bachelor in Engineering (Computer Science) University of Pune [🔗](#)

06/2012 - 06/2016

Pune, India

Swarm

Typescript

PERSONAL PROJECTS

react-excel-renderer (01/2019 - 02/2019) [🔗](#)

- Published an npm module to render and display excel sheets on web pages

hdfs-uploader (10/2018 - 12/2018)

- Developed both front-end(React) and back-end(Node) of a webapp that can be used to upload files to hdfs

remote-shell-file-executor (06/2018 - 09/2018)

- Developed a node module that allows user with appropriate credentials to ssh to a machine and execute a shell script remotely

Holidify (03/2018 - 05/2018) [🔗](#)

- Developed a web application that works as a one-stop-shop to a user going on a holiday using Angular 2
- It allowed users to store all holiday related information (booking tickets, hotels, flights etc) under one application

Office Hours (12/2017 - 02/2018)

- A react-native application that measures the number of hours spent in office and notifies user after mandatory hours are completed

Employee Management Portal (10/2017 - 11/2017)

- An Angular based SPA that deals with simple day-to-day activities of employee

ACHIEVEMENTS

School In a Box (06/2015 - 06/2016)

Developed and deployed a product, a learning application named "School In a Box" in an Australian University that digitizes every form of teaching and eradicates use of book/paper/pen

LANGUAGES

React JS

Node JS

Angular JS
